PROFILE

I am a qualified and professional web developer with five years of experience in database administration and website design. Strong creative and analytical skills. Team player with an eye for detail.

SKILLS

- Web Design
- Flutter and React.js
- Arduino IDE
- Front End Coding
- Problem-Solving
- Python
- Java

PROJECTS

WEB PORTFOLIO

I wanted to make a web portfolio that would be both informative and visually appealing. I started by choosing a color scheme and layout that I thought would be easy to read and navigate. I then added my resume, headshot, and some of my writing samples. I also included a section on my skills and experience. Finally, I added a contact form so that potential employers or clients could easily get in touch with me.

MATH.io

Math.io is a simple react web app which solves simple complex analysis problems and defines most of the theorems we used the API to solve most of the problems and we implemented the voice assistant to make the web application user-friendly.
